

Hamilton 350 Committee, Environment Hamilton, EcoWHam, and KAIROS present:

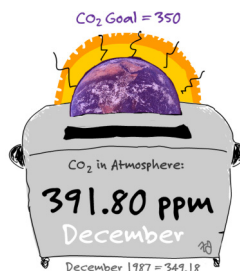

FRANKE JAMES

Canadian artist and activist, Franke James, was blacklisted by the Harper Government for speaking out on climate change. Franke is presenting her stories about the Tar Sands and the Northern Gateway Pipeline

"Franke James' work is honest, powerful and funny... Not to be missed by anyone interested in climate change or the future of Canada!"

Tzeporah Berman, Greenpeace

"Franke James is among the tiny handful of really powerful and profound artists who have taken on climate change..."

Her work is incredibly important"
